COMPLIANCE WORKFLOW MANAGEMENT

THE NUMBER ONE HEADACHE OF COMPLIANCE PROFESSIONALS IS MANAGING MULTIPLE WORKFLOWS AND TECHNOLOGIES

WHAT ARE YOUR PAIN POINTS?

(Check boxes that apply to you)

- ☐ Spreadsheets, spreadsheets, spreadsheets...
- ☐ Software and programs that don't interface well
- ☐ Communication and Scheduling issues
- ☐ Missing data
- ☐ Accessing data
- ☐ Compliance verification
- ☐ Limited staff and budget
- ☐ Merging and creating reports

PAIN RELIEF SOLUTION

- One application to handle all workflows
- Reduces data duplication efforts and workload
- All data in one place and easily found
- Easier reporting and analysis
- Unifies business units (front office, facilities and field)
- Traceable, Verifiable and Complete Records

ADDED VALUE

- Simple implementation process reduces work load on your staff and can result in less overtime
- Makes it easier to keep in compliance with changing regulations and new processes
- With all data collected in one place, audits are not something to stress over anymore
- Add field data remotely even if internet is not available. Data entered while offline is stored locally until an internet signal is established, then synced back into the system properly. Reduces the need for double entry and paper in the field with mobile offline.

"Developed by compliance professionals for compliance professionals."
