

COMPLIANCE MANAGEMENT SYSTEM

RCP provides a state-of-the-art, web-based Compliance Management System, TaskOp™, that can be tailored to meet the needs of any client. TaskOp™ is a modular system, capable of handling implementations from basic work orders through complex, asset-driven compliance and training management solutions.

RCP is a registered trademark of RCP Inc.

TaskOp™ Benefits

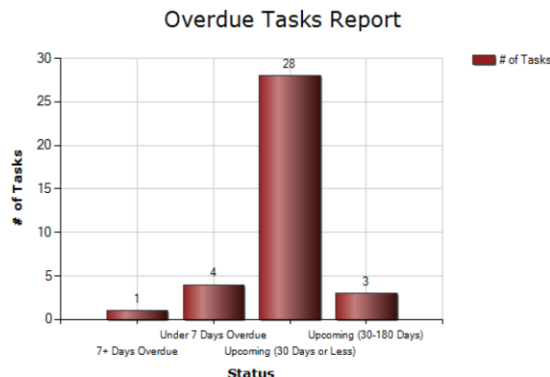

- E-mail reminders and customized reporting
- Track current and delinquent assigned duties
- Track and document audit-driven activities
- Maintain completion evidence and documentation in an easy-to-search archive
- Manage Operator Qualifications
- 100% web-based...no software to install...no IT headaches!

Areas Covered by TaskOp™

- Operations and Maintenance
- Integrity Management
- One Call
- Operator Qualification
- Asset Tracking
- Audits
- Document Storage

RCP offers a unique GIS component to the TaskOp™, allowing seamless visualization of (and interaction with) all TaskOp™ data.

PROFESSIONAL ENGINEERS. REGULATORY EXPERTS. TRUSTED PARTNERS.

RCP is a registered professional engineering corporation with extensive experience in all types of pipeline risk management and regulatory compliance consulting.
